FOR IMMEDIATE RELEASE

NxTech ConneXt wins RAVE Award for Agency Management System Connectivity

Milford, Ohio (June 1, 2010) – NxTech, Inc. a leading provider of Real Time and Download software and services, featuring their ConneXt Total Interface Solutions for Agency-Company Interface, was recently honored by *Tech Decisions* and Novarica with first place for the 2010 RAVE Award for Agency Management System Connectivity. The award was presented at the ACORD LOMA Systems Forum in Las Vegas.

The RAVE awards were designed by *Tech Decisions* and Novarica to recognize those solutions that are delivering exemplary value to their customers as measured by those customers themselves. The Novarica ACE (Average Customer Experience) Rankings, the basis for the RAVE Award, are not sponsored by vendors, and are based solely on the input insurer clients. Novarica ACE Rankings provide a transparent, un-edited picture of how well a solution meets its users' needs. For more on the RAVE awards, see <http://www.tech-decisions.com/RAVEAwards/Pages/default.aspx>

“The RAVE Awards are unlike any other award in the insurance technology space,” says Matt Josefowicz, director, insurance, for Novarica. “Rather than being chosen by a board of experts or an open online poll, the winners and honorable mention solutions are those that received the highest aggregate rankings from a group of current clients using Novarica’s Average Customer Experience (ACE) ranking methodology.”

“With all the choices in the insurance IT solution market, having unvarnished feedback in the ACE rankings from current users can only help to guide carriers considering new systems,” says Sharon Schwartzman, editor-in-chief of *Tech Decisions*. “And with the RAVE awards, we’re pleased to partner with Novarica to inform our readers about the products that customers participating in the rankings are raving about most.”

Thad Bauer, President at NxTech commented, “We have always prided ourselves in the experience and expertise of our staff, as well as the quality and functionality of the technology processes we deliver. To receive this RAVE award as a pure result of feedback from our clients is a true honor and much appreciated recognition of our efforts.”

About Novarica

Novarica provides information, insights, and perspective on markets, operations, and technology to financial services and insurance executives and project teams. The company delivers its service through published research, retained advisory services, and project-based consulting. Novarica's research includes market and trend analyses, best practices research, case studies, and independent analyses of insurance software vendors including the Novarica Market Navigators™ and Novarica ACE (Average Customer Experience) Rankings™. Novarica is a division of Novantas, LLC, the leading management consultancy and information services provider for the financial services industries. 212-419-2520 or www.novarica.com
