***ACORD Honors NxTech for Outstanding Accomplishment***

**Milford, Ohio (May 25, 2009)** – NxTech, Inc. a leading provider of Real Time and Download software and services, featuring their Total Interface Solutions for Agency-Company Interface, has received the 2009 ACORD Infrastructure Platform/Middleware Accomplishment Award. The award, presented to NxTech at the annual ACORD Awards luncheon at Lake Buena Vista, Florida, recognized NxTech for providing an infrastructure platform that eases the implementation of ACORD standards for Vermont Mutual Insurance Group® and UPAC® Premium Finance.

Improved ease of doing business through Real Time connections using ACORD standards was the goal of both Vermont Mutual Insurance Group® and UPAC® Premium Finance in working with NxTech. Agents of Vermont Mutual Insurance Group® with access to Transformation Station™ and TransactNOW™ can now bridge new business quotes in Real Time directly from their agency management systems through those managed delivery systems to the company website. For UPAC, agents can now retrieve a premium finance rate directly from their Applied Systems agency management system using Transformation Station™ in Real Time for their insureds. Both projects were based on ACORD XML standards.

“NxTech understands the value of standards and promotes the use of standards wherever possible. The awards presented to us by ACORD are a testament of how using standards, industry knowledge, and NxTech’s Total Interface Solution for implementations guarantees that carriers and agents reach their interface goals. Real Time processing is much easier to accomplish using standards from ACORD” says Bill Tedrick, CEO at NxTech. “Being recognized four years in a row, NxTech looks forward to even more success with ACORD and our customers in the coming years.”

“On behalf of ACORD, I want to congratulate NxTech on receiving a 2009 ACORD Award. I also want to commend them for their ongoing commitment to the implementation of ACORD standards,” said John Kellington, senior vice president, ACORD.

**About NxTech, Incorporated**

NxTech, headquartered in Milford, Ohio, was founded to provide technology to unlock data and integrate systems for the benefit of all participants within the insurance industry. Emphasizing Real Time straight through processing and download offerings with XML and ACORD standards, NxTech’s reusable component architecture allows for a comprehensive and easily expandable solution.
