NxTech Delivers Real Time Rating Integration for Penn National Insurance

Cincinnati, Ohio (July 12, 2007) – NxTech, Incorporated, a leading provider of real-time interfaces, system integration, data management and interactive web development has completed the implementation of Personal Auto and Homeowners Real Time Rating Integration for Penn National Insurance.

Real Time rating provides Penn National's independent agents the ability to receive accurate quotes within the Applied and AMS agency management systems. The transfer of information already entered in the management system, combined with enhancing the data stream by incorporating existing Penn National processes such as VIN and territory validations, saves agents duplicate entry and allows a true round trip quoting experience. Providing agents with optimum technology solutions for ease of doing business and increasing efficiency benefits all parties involved.

"Penn National needed a partner that could deliver on what they promised, and NxTech was able to do just that," said Sharon Marburger, Director – Internal Operations at Penn National Insurance. "They worked with us as part of a team, understanding our systems and bringing with them the insurance knowledge which was critical to this project's success."

Thad Bauer, President at NxTech commented, "Penn National has given their agents a quick, easy, and *complete* rating solution through the agents' management systems. This is a true industry solution, and will save their agents precious time in getting through policy quotes."

About Penn National Insurance

Penn National Insurance (www.pennnationalinsurance.com) sells personal and commercial property-casualty insurance in PA, MD, DE, NJ, VA, NC, SC, TN, and AL, through a network of more than 750 independent agencies. The company wrote \$579 million in premium in 2006, achieved net income of \$39 million, and total assets of \$1.3 billion. The company employs approximately 900 people, with its headquarters operation in Harrisburg, Pennsylvania, and regional underwriting and claims service offices throughout its sales and service territory.

About NxTech

NxTech, headquartered in Cincinnati, Ohio, was founded to provide technology to unlock data and integrate systems for the benefit of all participants within the insurance industry.
